

March 16, 2021

The Honorable Rosa DeLauro
Chairwoman
Subcommittee on Labor, Health and Human
Services, Education, and Related Agencies
U.S. House of Representatives
Committee on Appropriations
Washington, DC 20515

The Honorable Tom Cole
Ranking Member
Subcommittee on Labor, Health and Human
Services, Education, and Related Agencies
U.S. House of Representatives
Committee on Appropriations
Washington, DC 20515

Dear Chairwoman DeLauro and Ranking Member Cole:

On behalf of the 60 undersigned organizations representing the Nursing Community Coalition (NCC), we respectfully request your support of **\$530 million for the Nursing Workforce Development Programs (Title VIII of the Public Health Service Act [42 U.S.C. 296 et seq.])** and **\$193 million for the National Institute of Nursing Research (NINR, National Institutes of Health) in Fiscal Year (FY) 2022**. As the nation continues to address COVID-19, it is imperative that funding for these programs reflects the heightened needs of our communities, especially as nurses across the country remain on the frontlines of this public health crisis. We appreciate the Subcommittee's strong commitment to nursing education, workforce, and research and urge you to take bold action by doubling funding to Title VIII Nursing Workforce Development Programs and increasing NINR funding in FY 2022.

The Nursing Community Coalition is a cross section of education, practice, research, and regulation within the nursing profession representing Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs),¹ nurse leaders, students, faculty, and researchers. With more than four million nurses throughout the country, the NCC is committed to advancing the health of our nation through the nursing lens.² The nursing workforce is involved at every point of care, which is exemplified by nurses' heroic work during the COVID-19 pandemic.

As we continue to confront today's health care challenges and plan for tomorrow, increased federal resources for our nation's current and future nurses are even more imperative. Title VIII programs are instrumental in bolstering and sustaining the nation's diverse nursing pipeline by addressing all aspects of nursing workforce demand. In fact, the Bureau of Labor Statistics projected that by 2029 demand for RNs would increase 7%, illustrating an employment change of 221,900 nurses.³ Further, the demand for

¹ APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

most APRNs is expected to grow by 45%.⁴ This is just one example on why continued and elevated investments in Title VIII Nursing Workforce Development Programs in FY 2022 is essential and will help nurses and nursing students have the resources to tackle our nation's health care needs, remain on the frontlines of the COVID-19 pandemic, assist with the distribution and administration of the vaccine, and be prepared for the public health challenges of the future.

Now more than ever, we have witnessed the importance of science in the discussion of cures and preparedness. As one of the 27 Institutes and Centers at the National Institutes of Health, NINR's research is aimed at reducing burdensome chronic illness, improving end of life care, and promoting patient-centered care across the life continuum. Our nation's nurse researchers and scientists are essential to developing new evidence-based practices to care for all patients. Through increased investments in NINR, they will be able to continue their vital work at the forefront of disease prevention, patient care, and recovery.

During this unprecedented public health emergency, and as you work to develop FY 2022 spending levels, we urge you to **support \$530 million for the Title VIII Nursing Workforce Development Programs and \$193 million for the National Institute of Nursing Research in FY 2022.** We appreciate the Subcommittee's strong commitment to nursing education, workforce, and research and urge you to continue to safeguard the public's well-being by putting forward bold investments for these critical programs. If our organizations can be of any assistance, or if you have any questions, please contact the Nursing Community Coalition's Executive Director, Rachel Stevenson, at rstevenson@thenursingcommunity.org or at 202-463-6930, ext. 271.
